

ICOConvert

[Home](#)[Software](#)[Multiple PNGs to One ICO](#)[Batch PNG to ICO](#)[Batch ICO to Image](#)

ICO Convert is a free online icon maker and favicon generator, with it you can make icons from png or jpg images, just upload a photo of yourself, resize and crop it, convert to a shape you like, add borders and shadows, and save it as a PNG image or Windows icon.

To convert PNG to ICO, ICO to PNG quickly without cropping image and applying styles, please access [the old homepage](#).

Step 1. Upload an image

Select a PNG, JPG or BMP image(maximum size: 50 MB):

secure.png

Successfully uploaded.

Step 2. Crop your image(optional)

Click and drag to select the area you want to include in the final icon, then go to the next step.

X1: 0 Y1: 0 W: 0 H: 0

Step 3. Apply styles(optional)

Click the style you like to apply it to your icon, click it again to deselect it, you can select multiple styles.

In Windows 7, you can press "Win + D" to show the desktop, then hold down Ctrl and scroll your mouse wheel to change the size of your icons.

Step 4. Select the icon format

- ☐ PNG
- ☒ ICO for Windows 10, Windows 11, 7 and 8
- ☐ Favicon icon for your website
- ☐ Custom sizes(☐ Original size ☐ Multi-size in one icon)
- | | | |
|----------------------------------|----------------------------------|------------------------------------|
| ☐ 16 x 16 | ☐ 48 x 48 | ☐ 128 x 128 |
| ☐ 24 x 24 | ☐ 64 x 64 | ☐ 192 x 192 |
| ☐ 32 x 32 | ☐ 96 x 96 | ☐ 256 x 256 |

Step 5. Convert and download

The .ICO file format was defined and created by the Microsoft corporation, .ico files are widely used in the Windows operating systems include Windows 7, Windows 10, Windows 11, etc. On the desktop of Windows, each application shortcut has an icon in .ico format, the icon can be scale in or out. One .ico image can contain several separate static images, each image's width usually is same as its height.

This online app enables anybody to convert images in JPEG format or PNG format to the .ico format. If the image width is not same as the image height, you can crop it using mouse easily, the web app even allows you to apply several image effects to the final icons, such as add shadows, add borders, apply heart shape, etc.

This online tool can also be used to create favicon images, which are used to visualize the websites.

Twenty years ago, if you want to create an .ico file, you'll have to download and install a software on your system, some software are freeware, some are commercial software or shareware which will cost you more than ten dollars. Sometimes, installing software on your system is not safe, it may install virus or ad component on your system. If you don't need to generate .ico files frequently, using an online tool is more fast and convenient.

If you want to crop a photo of yourself, you friend, or your pet, and apply effects, but your computer is a Mac, you can choose to generate images in .PNG format instead of .ICO format, then convert the PNG image to .ICNS format with other tools.

The copyright of your images is always belong to you, we don't own the copyright of them, therefore we will not sell your images on other platforms. Actually, we'll not download or view your images.

The conversion happens on the cloud, you just need a modern Web browser such as Google Chrome, Microsoft Edge, Mozilla FireFox or Apple Safari to access this site, this means that it support almost any operating system such as Windows, Mac, Ubuntu, Android, iOS.

Your images are transfered through a secure 256-bit encrypted SSL connection across the Internet, this means that nobody can decrypt the connection, nobody can view your image on the Internet. Only your device and our server has access to your images.

Our conversion tool does not modify your original images. When you upload an image, the original file is unmodified and untouched on your computer or mobile phone or tablet. Additionally, we do not store your images on the server, all images uploaded and generated will be removed automatically after one hour, so you don't need to worry, your privacy are protected.

The .jpg and .png are the most popular images nowadays, but more and more users are store images in .heic and .webp format now, we'll add support for these image formats in the future.

We do not like to disturb visitors, the reason of putting advertisements on this page is that we'll need to pay the cost of the server(every month) which hosts this site. The server is extremely powerful, so your images will be converted to .ico files quickly.
